Company Profile
A High-Tech Enterprise specialized in Design, R&D and Manufacturing of Li-ion Polymer Battery Cells / Packs

Shandong Kingpin Energy Co Ltd, established in 2010 in Tai’ an city, Shandong province, China, employs over 1000 workers and covers an area of 20,000 sqm. Kingpin Energy is a high-tech enterprise leading in the design, R&D, manufacture, sales and marketing of rechargeable lithium ion / polymer battery cells and the related battery packs and systems. The company has two fully automated production lines equipped with the most advanced machines for double coating, automated electrodes making, high temperature formation, etc. with a daily output that reaches up to 80,000 Ah.

Kingpin batteries, which are approved / certified with ISO 9001:2008, CE, ROHS, UL, IEC62133, UN38.3, MSDS, BIS, KC, PSE, and etc, are widely used in Power Banks, Smart Phones, Laptop Computers, Tablet PCs, POS Machines, Digital Media Players, Digital Cameras and Camcorders, Cordless Terminal Equipment, Baby Swing Cars, Unmanned Aircrafts, Car Jump starters, etc. In addition, Kingpin batteries are also widely used in the electrical energy storage market in E-vehicles, E-scooters, E-bicycles, energy storage products, etc.

In the coming years, Kingpin Energy plans to increase investment, expand production and R&D, to develop and supply world-class, new energy battery systems to their customers in China and overseas.
